

LIFE MEMBER NOMINATIONS PROCESS

Life Member Nominations may be submitted to the Life Member Sub-Committee from any member at any time. The nominating person should

- ❖ Clearly outline the years of service and contribution to the Association made by the nominee.
- ❖ Ensure the nomination is signed and dated.
- ❖ Ensure the nomination has a person to second the nomination, signed and dated.
- ❖ Not be a direct family member of the nominee for the nomination.

Any submission to nominate a person for consideration should be submitted in confidence to the CEO to pass on to the Sub-Committee. The Sub-Committee assess nominations both new and historical to make a recommendation to the Board for consideration. The Board have the final decision in this process.

In submitting the case for the nominee it is important to provide as much history as possible to make clear why the person is being nominated. The application is assessed on the strength of what the individual (as a 'volunteer') has contributed to Willetton Basketball Association overall and for how long, and in which capacities.

Aspects considered include time spent on the WBA Board, Committees, Sub-Committees, leadership activities including coaching representative level basketball and other roles, and achievement internal and external to the Willetton Basketball Club.

Consideration is also given to how the nominee has conducted themselves in all aspects of their club involvement.

Although not necessary for the application, a template for submissions is available on request from the WBA office.
